

OUR STORY

Kelly and Denny Sharp are both Native Iowans and grew up in Des Moines. Kelly has owned and operated Heart of Iowa Market Place in Historic Valley Junction for over 5 years. Her love for the district and desire to see it continue to grow and draw visitors led her and her husband to develop this exciting new Wine Café, which she felt was a missing element in the restaurant offerings in the area.

Denny Sharp is the President of FEH Design, a local Architecture, Structural Engineering and Interior Design firm with offices in Des Moines, Dubuque, Sioux City and Wisconsin. As an Architect, he felt it was important to be respectful of the 100-year-old building in terms of design and bring back as many of the historic elements as possible when designing the new Café. He also loves this district and the wide variety of activities and events that are held each year.

The space was completely renovated, and special care was taken to showcase the historic aspects of the building, using the natural brick as a major design element. The stunning modern bar brings forth the space the sleek sophisticated element that Kelly was seeking. The moveable front doors will allow for the patrons to feel part of the fabric of the district and what is happening on the street.

Our goal at Vino209 is to create a relaxing and cozy atmosphere with delicious food, interesting wines and professional service that will make you want to come back again and again.
